

Pneumatic Lamp

Special explosion-proof lamps, constructed with spark proof materials.
It can be used in all the areas where for safety reasons it is not possible to use electric lamps or where there is no electricity available.

Air Consumption:	300L/min
Operating voltage:	120 V max.
Ignition voltage:	210 V max.
Electrical power:	80 W
Luminous flux:	3.800 LM
Bulb:	80 W HQL
Operating pressure:	0.6 - 0.9 bar
ambient temperature:	-20°C - +40°C
Air coupling:	G 3/4"
Main Material:	Aluminum Alloy
